Report: 1

Explanation: In Marjukka Korhonen's opinion she is guilty of a collective crime, pollution of e.g. the Baltic Sea.

Korhonen made a personal report at Pasila police station in Helsinki that she has been polluting the Baltic Sea by e.g. driving a car, using public transport, flying by aeroplane, and washing dishes by the shore. Korhonen also thinks she is guilty of the crime because she has been consuming Finnish grains and milk products.

In Korhonen's opinion, everybody is guilty of the same kind of actions as part of their lifestyles.

Korhonen requested the police to take action to stop the pollution of the Baltic Sea.
